DETAILED ACTION

Response to Amendment

1. Applicant's amendment and accompanying remarks filed 02/25/04 and 02/02/04 respectively have been fully considered and entered. Claim 10 has been canceled as requested. Applicant's cancellation of claim 10 renders moot the rejection of claim 10 rejected under 35 U.S.C. 102(a) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Applicant's own Admission as set forth in section 3 of the last Office Action. As such, claim 1 is the only remaining pending claim. As set forth in section 4 of the last Office Action, claim 1 is allowable over the prior art of record for reasons set forth below.

Drawings

2. Figure 9 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

Allowable Subject Matter

3. The following is a statement of reasons for the indication of allowable subject matter.
Claim 1.

Though there is nothing particularly novel regarding the elastomeric non-woven roll of the instant claims, presently, no prior art exists that teaches or suggests a non-woven roll of fabric wherein the tension required to unroll the non-woven fabric from the roll is .25g/cm/basis-weight or less. The method steps recited in claim 1 impart an internal tension to the non-woven

roll that is much less than that found in the prior art of record. The resulting lower internal tension creates a less tightly wound roll which gives rise to the claimed tension requirement.
